PROFESSIONAL SUMMARY

Computer Science graduate and Generative AI Intern with 6 months of internship experience in AI/ML and Data Analytics. Expert in leveraging LLMs, LangGraph, and Vector Databases to build production-ready AI solutions. Dedicated to solving real-world problems through innovative machine learning architectures and efficient data-driven strategies.

TECHNICAL SKILLS

• **AI/ML & Gen AI:** RAG, Multi-agent AI Systems, NLP, Prompt Engineering, Semantic Search, EDA
• **Frameworks:** LangChain, LangGraph, LlamaIndex, Pytest
• **Programming & Data:** Python (Pandas, NumPy, scikit-learn), SQL, APIs, JSON
• **Vector Databases:** Pinecone, FAISS, ChromaDB
• **BI Tools:** Power BI (Basic), Seaborn
• **Methodologies:** SDLC

PROFESSIONAL EXPERIENCE

AI / ML Engineer Intern | Lnteks Technologies, Hyderabad | Aug 2025 – Jan 2026
• Developed AI-driven applications using Python, Machine Learning models, and NLP techniques.
• Built automation dashboards and reporting workflows, improving process efficiency by ~20%.
• Implemented data preprocessing, feature engineering, and model evaluation for predictive tasks.
• Collaborated with teams in an Agile SDLC environment, supporting deployment and debugging.

PROJECTS

Smart AI Budget Analysis | Python, Streamlit, Pandas, LLM
• Developed an AI-powered financial analytics application that processes CSV transaction data, performs automated expense categorization, and generates real-time visual insights using

Streamlit.
• Implemented data cleaning, income-expense segmentation, and rule-based classification to analyze spending patterns and identify cost-saving opportunities.
• Integrated a Large Language Model (LLM) to generate personalized financial summaries and intelligent recommendations from structured financial data.

SharePoint Automation Agent | Python, MSAL, Microsoft Graph API
• Built a secure file automation system using MSAL and Microsoft Graph API to authenticate users and manage SharePoint document operations.
• Implemented automated file upload, retrieval, and access control workflows through REST API integration.
• Designed a Streamlit-based interface with token caching and secure session management to improve cloud file handling efficiency.

EDUCATION

• B.Tech in Computer Science | Malla Reddy College of Engineering, Hyderabad | CGPA: 7.3 | 2021 – 2025
• Intermediate | Sri Sarada Junior College, Sircilla | GPA: 9.1 | 2019 – 2021
• SSC | KRZPHS High School, Sircilla | GPA: 9.7 | 2018 – 2019

CERTIFICATIONS

• Generative AI – GUVI & HCL
• Data Analytics – Vodafone Idea Foundation
